Website: www.absam.ir

Last Update: 2024

#### Specialty: Watershed Eng. - Hydrology Univ. of Tehran, Iran, 2001.

#### **Research Interests**

- Flood Control & Hydraulics
- Groundwater Modeling
- Hydro-Climate & Planning
- Data & Uncertainty

#### Academic qualification

BSc. Eng. of Watershed Management- with emphasis on Soil and Water Conservation Eng. Univ. of Tehran, 2001.

**Project:** <u>*Hydrology & Water Resources*</u>: Flood estimation based on innovative Daliri CN method with SCS and data analysis, salt tracing & ROD ruler in ditch, Taleghan, Alborz".

#### MSc. Eng. of Watershed Management- Hydrology. Univ. Science and Research Branch of Tehran, 2007.

Thesis: **Planning** Alavian Dam rule curve by Lingo programming.

(Main course: River Engineering/Water resource management /Soil erosion & Sediment/Flood Control/Snow & Avalanche/Water Quality/Water-Soil-Plant relations/Systems Analysis

### Teaching Background

- ✓ Part time Instructor Shahid Abaspour Univ., 2010-To be continue:
- ✓ Hydrology & Hydraulics, Geohydrology.

Member of Societies

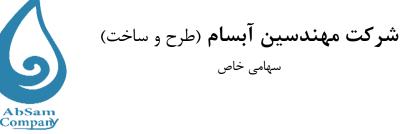

- -Iran Science & Water Resources Engineering, 2008, NO. 87-01-106
- -Iran Science & Watershed Management Engineering, 2008, NO. 1370.

Work Experience-Technical Reports

### Project Management, Iran, Absam EPC Co.

Year: 2021-2023

Location: Zabol and Sistan, Province / Iran

Client: UNDP and Environmental Organization of Iran

Main project features: Flood control

Positions held:

• Project manager / Hydraulic and hydrology expert Phase: 0

Activities performed:

Hydraulic and hydrology and society studies

Project Management, Iran, Absam EPC Co.

Year: 2021-2023

Location: Ahvaz, Province- Kot Abdola / Iran

Client: Urban management Org.
